Re: *Ex Parte* Notice

GN Docket No. 09-51, RM No. 11592, ET Docket No. 10-235

Dear Ms. Dortch:

On Thursday, March 1, 2011, Danielle Coffey, Telecommunications Industry Association (TIA); Patrick Sullivan, TIA; Jeffrey Marks, Alcatel-Lucent; Michael McMenamin, Alcatel-Lucent; Derek Khlopin, Nokia Siemens Networks; and Evan Morris, Harris Corporation met with Charles Mathias, Senior Legal Advisor, Wireless, International, and Public Safety Issues, Office of Commissioner Meredith Attwell Baker.

During this meeting, TIA communicated its strong support for voluntary incentive auctions, which could free up spectrum for valuable advanced wireless services, allow incumbents to gain access to additional capital to develop their own business models, and provide revenue to the Treasury. TIA noted that, as spectrum reallocation can be a lengthy process, TIA believes that the Commission should be given the ability to conduct voluntary auctions by Congress as soon as possible.

It was also stressed by TIA that the petition requesting that devices be required to be capable of operating in all areas of the 700 MHz band ignores technological and marketplace realities, and will hinder innovation.

Pursuant to Section 1.1206 of the Commission's Rules, 47 C.F.R. § 1.1206, a copy of this submission is being provided to the meeting attendees. Please contact the undersigned with any questions in connection with this filing.

Respectfully submitted,

/s/ Danielle Coffey
